**Subject: Introducing the BVM WBCE Programme – Weekend Booster for Competitive Excellence (NEET/JEE)**

**Dear Parents,**

At Bala Vidya Mandir, we believe that every student's dream deserves the right guidance, a strong academic foundation, and a healthy learning environment. As our students prepare for important milestones in their academic journey, we recognise that balancing the school curriculum with competitive examination preparation can often become physically demanding, emotionally stressful, and financially challenging for families.

With the vision and support of **Bala Brindavan Society and the leadership of our Correspondent**, Bala Vidya Mandir is pleased to introduce the **WBCE Programme (Weekend Booster for Competitive Excellence)**—an in-house integrated coaching initiative designed to help our students prepare systematically for NEET and JEE without compromising their school education or well-being.

**Why choose the BVM WBCE Programme?**

Many students attend school during the week and travel to external coaching centres during weekends or after school hours. This often leaves them with limited time for self-study, revision, relaxation, and family life. Managing different teaching approaches and demanding schedules can also make learning more stressful than it needs to be.

**At BVM, we believe that competitive success should be built on conceptual clarity, consistent practice, and personalised guidance—not on excessive pressure or exhausting schedules.**

Our WBCE Programme brings competitive examination preparation into the familiar and supportive environment of the school. Guided by our experienced faculty, students can strengthen their concepts, practise application-based questions, clarify doubts, and develop the confidence required to face competitive examinations.

**What makes WBCE different?**

- **Learning in a familiar environment:** Students receive guidance from teachers who understand their academic progress, strengths, and areas for improvement.
- **Focused weekend coaching:** Structured sessions help students prepare for competitive examinations while continuing their regular school education.
- **Concept clarity and practice:** Carefully selected study materials, handouts, question banks, and problem-solving exercises support systematic preparation.
- **Dedicated doubt-clearing sessions:** Students receive additional opportunities to clarify concepts and address individual learning difficulties.
- **Regular progress monitoring:** Monthly assessments and individual feedback help

identify areas requiring improvement and guide students towards more effective preparation.

- **Less travel, better time management:** With coaching conducted on the school campus, students can avoid the additional travel associated with external coaching centres.
- **A more economical approach:** The programme is designed to offer structured preparation at a comparatively affordable fee, helping families manage the additional financial burden of competitive coaching.

**Programme Schedule**

The programme will be conducted on weekends as follows:

- **Saturdays:** 1:15 p.m. to 4:30 p.m.
- **Sundays:** 8:30 a.m. to 1:40 p.m.

The programme will commence in June. For Class XI students, coaching will continue from June to April, while Class XII students will continue until the NEET/JEE examinations, as applicable.

The programme will include focused coaching sessions, doubt-clearing support, weekly practice assignments, question-bank discussions, and periodic assessments to encourage consistent preparation and progress.

**Programme Fee – A Two-Year Commitment to Excellence**

We are pleased to offer the following packages for students enrolling for Classes XI and XII:

**Option A – NEET or JEE (PCB or PCM)** ₹80,000 for the complete two-year programme.

**Option B – NEET and JEE (PCMB)** ₹90,000 for the complete two-year programme.

The course fee is payable in full at the beginning of the programme as a donation to Bala Brindavan Society (a non-profit society). A donation receipt will be issued to the parents for claiming tax deduction under Section 80G of the Income-tax Act.

**Please note:** The WBCE Programme is offered as an integrated two-year package for Classes XI and XII. Registrations will therefore be accepted only for the full two-year tenure, enabling continuity in learning and preparation.

**More Than Coaching—A Commitment to Our Students' Future**

We want our students to pursue their ambitions without losing the joy of learning or the balance essential to their well-being. Through WBCE, we aim to create a supportive learning environment where school education and competitive preparation complement each other.

Our guiding principle is simple: **strong concepts, consistent preparation, personal guidance, and balanced learning can help students approach their goals with greater confidence.**

We believe that the partnership between parents, teachers, and students—the *Golden Connect*—is essential to this journey. With your trust and support, we hope to help our students make the most of these formative years and prepare thoughtfully for their chosen professional pathways.

We invite interested parents to consider this opportunity and register their children within the stipulated period, enabling the school to plan the programme effectively. Further details regarding registration and the commencement of classes will be communicated shortly.

Let us work together to provide our children with the right guidance, a stronger foundation, and a more balanced path towards their aspirations.

**Warm regards,**

**Principal**
